RELAXED PERFORMANCE

Relaxed performances are intended specifically to be sensitive to and accepting of audience members who may benefit from a more relaxed environment, including (but not limited to) those with autistic spectrum conditions, sensory and communication disorders or learning disabled people.

The venue, staff and actors make lots of small changes that make the difference to enable someone with sensory disorders being able to cope with a trip to the theatre. These changes might include: keeping the lights on, the doors open, having no bangs or pyrotechnics and offering 'chill out' spaces to calm those who need it.

We also send a Relaxed Performance Guide to all ticket buyers showing families all the things they need to know about the venue, and the show, in advance - great for pre-planning.

Book via box office (not available online) who can give advice and details.

"As a grandma of autistic children I was so impressed how much trouble the theatre staff went to to ensure all the children enjoyed the performance". Sleeping Beauty 2018-19
