Billboard SPECIAL SURVEY For Week Ending 12/25/71

Cartridge TV

FCC Extends Radiation Limits Discussion Time

By MILDRED HALL

WASHINGTON—More requests for extension of time to comment on the government's rulemaking on cartridge tv radiation limits may bring another two-month delay in comment deadline. Also, the Federal Communications Commission is considering a spin-off of the radiated-signal CTV devices for separate consideration.

In response to a request by Dell-Star Corp., which proposes a "wireless" or "radiated signal" type system, the FCC granted an extension to Dec. 17 for comments, and to Dec. 29 for replies. This extension was designated largely for comment pertaining only to the wireless type CTV tuners.

The FCC said it was reluctant to grant the requested delay because the Dell-Star system, which involves no coaxial connection between player and set, is a type the commission has found too prone to interference. However, the commission said it intends to study the Dell-Star system's potentials very carefully, so as not to overlook any possibilities in the new technology.

The commission has declared a preference for either the EVR (Motorola) design with wire connection between player and set, or the "ideal" if more costly built-in type with the CTV tuner made part of the set.

In granting the Dell-Star plea for more time, the FCC said it will not delay or defer finalizing the rules for the direct-connected video player systems, and may spin off the air-pickup system rulemaking.

However, even more time was asked in filings by the National Cable Television Assn. which wants another 60 days for its new engineering advisory committee to study the effects of the home video tuners on cable reception.

Conflict Seen

Cable systems are afraid complications may arise

because some of the home video tuners will utilize unused TV channels, and CATV people fear conflict with their own increasing channel capacities, from 12 to 20 and more.

Cable TV says the situation is "further complicated by the fact that there is a direct connection to the subscriber's TV set from the cable system to other subscribers." Any interference factor would be multiplied over a whole network of CATV homes wired to a master antenna.

The NCTA says the extra two months are needed to make sure that final standards and/or type approval set up by the FCC will avoid loading cable TV with problems and responsibilities. At the same time, they would not like to see any unnecessary costs dumped on manufacturers.

The Electronic Industries Assn.'s segment of manufacturers of broadband cable communications equipment, broadcast and closed circuit TV, has asked the FCC to be sure that any final standards make all output CTV devices suitable for a closed coaxial cable system, to avoid interference problems.

This group, the Communications and Industrial Electronics Division (CIED) parts company with some other member firms in the Electronic Industries Assn. by urging the FCC to require type-acceptance, at least for a reasonable period of time, to see what degree of regulation would ultimately be needed.

The EIA's Consumer Electronics Division, in its filings and public comments, has urged the more flexible route of certification of standards, and opposes type approval. This group said type approval would only delay and deter many innovations possible under the same system of certification that has enabled TV sets to give the public many improvements.

Avco Inks Domestic Licensee

LOS ANGELES — Avco has signed Teledyne Packard Bell as its fourth American market licensee to sell its 1/2-inch Cartrivision system.

PB will introduce the cartridge television feature next year in a 25-inch color console and in color portable units.

Last April PB invited Avco to demonstrate its CTV unit in Hawaii at its dealer/distributor convention.

PB thus joins Admiral, Emerson and Warwick Electronics as the first U.S. licensees who will be making sets in addition to Avco's own production models.

Avco has been quoting a \$900 price for a complete model and \$500 for an add-on satellite player.

Warwick Electronics is a supplier for the Sears chain. Admiral and Emerson will sell their units through their own electronics dealer outlets.

PB has just opened a new warehouse in Akron, Ohio, which will serve the eastern and central parts of the country—areas which are destined for greater marketing em-

(Continued on page 32)

3M's NEW high energy blank 3/4-inch videotape will carry the Sony U-Matic videocassette identity. The product under the Scotch name will be introduced nationally early next year under the recently signed cross-licensing arrangement between the two companies.

3M Readies Two Tape Speeds

LOS ANGELES—3M's magnetic products division will bow two time lengths of 3/4-inch blank videotape which will play on Sony and Wollensak cartridge television units. The lengths are 30 and 60 minutes. The high energy tape uses a formulation which improves

recording at slow speeds, the company claims. Both speeds will be ready by early 1972.

The cassettes are smokey gray in color and are the size of a hard-cover novel. The products will be distributed through the company's regular videotape distribution channels.

RCA's Videotape Base Moved to Indianapolis

INDIANAPOLIS — RCA shifts its SelectaVision cartridge TV system to its consumer electronics division headquartered here Jan. 1, 1972.

The company previously stated it would have a 3/4-inch videotape system developed for the cartridge TV home player/recorder field.

Medical Exchange

BERLIN—Ullstein Productions and the Olivetti Systed company of Italy have signed a joint agreement for the exchange of medical videocassettes. Ullstein is a local company. Olivetti is a branch of several audio/visual firms which have been creating instructional programs for several years.

In discussing the move from a New York development base to here, Barton Kreuzer, the executive vice president for the consumer electronics division, called the videotape system "MagTape."

RCA claims its videotape system will be less expensive and less complex than other magnetic tape systems being developed for the home user. RCA is also discussing its system with other manufacturers interested in the home CTV market.

The SelectaVision business development group continues to be headed by Robert Biting, who shifts here and now reports to Kreuzer. Tom McDermott, who heads the SelectaVision programming operation, remains in New York.

Cartrivision Inks Julia Child and Needlework Name

BOSTON—WGBH-TV has licensed three of its shows to Cartrivision, including the renowned Julia Child's "The French Chef." The public television station is also providing "Making Things Grow" by Thalassa Cruso and "Erica," a new program featuring Erica Wilson teaching needlework.

The French cooking show has been on the air since 1963 and is seen along the non-commercial TV network in major markets.

Classical Music

English Recording Scene: Storm Clouds Gathering

By EVAN SENIOR
Record & Tape Retailer staff member

(Editor's Note: For the second time within a year storm clouds are gathering over the classical recording scene in Britain (U.S. scene, Billboard, Dec. 11). The current agreement negotiated in March between the record companies and the Musicians Union representing symphony, opera and ballet orchestras expires at the end of this month. The following is first of two-part series analyzing the difficulties.)

LONDON — This year's U.K. agreement, reached after months of negotiations as an interim measure until the end of 1971, gave classical orchestral musicians a 20 percent increase in fees as against a reported initial demand by union negotiators for 46 percent.

These orchestras receive less, under separate agreements, than

other recording fees for popular orchestras, for broadcasting and television. These other agreements run until mid-1972, and it has been suggested that the present agreement ending this month could be renegotiated for some months of 1972 so as to bring the two agreements into line, ending and therefore re-negotiable at the same time. Soaring recording costs in the U.S. have in recent years cut severely into recording activities in the U.S., leading to increased use of less-expensive British and continental orchestras in classical recording, both symphonic and operatic.

And behind the players' thinking at the moment is the ever-present fear that if U.K. costs rise much

further recording companies could well begin to turn elsewhere for the lucrative recordings jobs that now come to British orchestras.

Straw in the wind is EMI's Iron Curtain breakthrough that led to the recent Karajan recording of Wagner's "The Mastersingers of Nuremberg" with the East German orchestra and chorus of Dresden. Heavily subsidized and well-paid inside its own economic system, Dresden's orchestra could well have been made available at a "reasonable" figure by the GDR authorities anxious to secure foreign currency.

Chicago Symphony

Chicago Orchestra, in London only last month to a welcome by both EMI, which records them under Giulini, and British Decca which makes recordings under Georg Solti, had not only a three-year agreement with EMI-Angel, but still has another with Decca-London. EMI international artists chief, Peter Andry, told Billboard that even though the expiring agreement with Chicago would not be renewed, that did not mean the end of recording with them under Giulini. "We certainly intend to continue," he said, "but on a single-recording basis rather than an agreement for a fixed number of recordings, as and when we find it possible."

British Decca's agreement with Chicago runs until the end of 1972. "Whether or not it will be renewed in its present form when it runs out depends on what it is going to cost us," said Decca a&r manager Ray Minshull. "We're not making any decision until we can see which way the cat jumps."

Uneconomic

Both of these major recording company chiefs agree that any further rise in recording costs could come to the point where large-scale classical recordings might become uneconomic in spite of rising sales of classical records in both Britain and the U.S.

Even with the 20 percent rises achieved by Musicians' Union negotiators earlier this year, musician's fees for recording in Britain are way below those in the U.S.

Minimum recording fees here, for a three-hour session, range from \$24.50 for principals down to \$21 for rank-and-file musicians, making the orchestral cost for a symphony recording somewhere in the region of \$9,600.

American musicians get \$95 a session, a symphonic recording there costing about \$30,000.

Total cost, including all overheads, of a major symphonic recording, could well involve between \$24,000 and \$36,000, and in the case of a complete opera recording using a symphony orchestra and expensive soloists, up to \$72,000.

(To Be Continued Next Week)

U.K. Gov't Leader as Conductor on EMI

LONDON—Exclusive EMI recording of Prime Minister Edward Heath conducting the London Symphony Orchestra in Elgar's "Cockaigne Overture," due out last week, will add to the \$40,000 gross returns from the LSO Trust Fund gala concert in the Festival Hall held on Nov. 25.

EMI's recording will retail at top price of \$5.00, with royalties going to the trust fund established with Edward Heath as a founder member, and of which he remained chairman until becoming Prime Minister last year.

Last week, the LSO recorded extra items for the disk, all often asked for by orchestra fans and EMI correspondents. They were Leonard Bernstein's "Candide

Overture." Enescu's "Rumanian Rhapsody No. 1," which the LSO has played on TV, and conductor Andre Previn's own choice, Vaughan Williams' "Greensleeves Fantasia."

LSO general manager Harold Lawrence said that this year's gala concert revenue was higher than anything achieved since the start of the gala trust fund concerts in 1963. It came from ticket sales, donations and programme advertisements. "Expenses were higher this time," he added, "but we expect that in the end the fund will gain more than ever before."

Sleeve of the EMI recording will carry a color picture of Heath conducting at the concert.

JCOA Releases Opera Pkg Recorded Over 7 Months

NEW YORK—A three-record set featuring performers who attended the various recording sessions from places as disparate as Brazil, Sweden and England, is being released this month by JCOA Records, label of JCOA, a non-profit organization.

The package, "Escalator Over the Hill," is an opera recorded over a seven-month period at RCA Recording Studios and at the Public Theater here by Butterfly's Mobile Recording Unit. It features a multitude of musicians and singers including Jack Bruce, Carla Bley, Linda Ronstadt, Viva, John McLaughlin, and the Jazz Composer's Orchestra.

Some vocal parts were recorded in Los Angeles and London. Writer Paul Haines, who lives in New Delhi, India, flew in for consulta-

tion twice during the recording and editing stages. The recording was produced and coordinated by Michael Mantler.

JCOA's total program consists of commissioning new works, the presentation of workshops and concerts, the production of records and the distribution of JCOA records and those produced independently by musicians. JCOA plans to distribute the opera record direct to selected stores and to individuals through mail order sales.

93 Orchestras Getting 5.1 Mil In Grants

NEW YORK—Grants totaling \$5,199,756 will be given to 93 symphony orchestras in fiscal 1972. Of this total, \$4 million will come from Federal funds, the rest from private sources, the National Endowment for the Arts has revealed.

Orchestras which will get grants include the Cincinnati Orchestra, \$200,000, of which half will come from private funds; the Chicago Symphony, \$100,000 to continue its youth concerts; The Los Angeles Philharmonic, \$200,000, half private funds; to continue and expand youth programs; the Cleveland Pittsburgh, St. Louis, Minnesota, and National Symphony of Washington, D.C. will all get five-figure grants as well.

Vox Jox

• Continued from page 24

stereo are going to be a big factor one of these days. Some station in New York ought to wise up. Country music would be an automatic programming success in New York on FM.

Bill Gentry, with two years of experience, needs a radio job. Knows production, call 303—366-6412. . . . **Brad Sobel**, 19, and his wife, **Jessie**, 18, put KPOT-FM on the air here without FCC permission operating out of a closet in their West Los Angeles apartment. The FCC stopped them, of course. But now the station is back broadcasting, this time via Theta Cable TV in the Pacific Palisades area of Los Angeles. This doesn't require a license. I can foresee a day when

Admiral for 8-Track

• Continued from page 28

multiplex radios, and a 4-channel system.

While the quadrasonic market is not clearly defined, Admiral will introduce a 4-channel matrix/discrete component disk-tape system with four speakers and a multiplex tuner in mid-1972. Boba stated.

The executive, however, believes the 4-channel market will eventually break down this way:

"Tape will be discrete, broadcasting will be matrix and God only knows about disk."

Like many others in the industry, Boba is uncertain on just how the 4-channel disk concept will shake out. And like others, Admiral is cautiously exploring both avenues.

Boba is more confident in talking about future business, though. "Frankly," he said, "we expect an excellent year in 1972, at least for Admiral's special markets group."

Sales in that group increased about 40 percent through November 1971 as compared with the previous year, he said.

Domestic Licensee

• Continued from page 30

phasis from the locally-headquartered company.

Distribution in the New York, lower Connecticut, New Jersey and Philadelphia areas will be handled by Furlong Marketing, a new firm.

PB's decision to go with Avco backs up its position that cartridge TV is "peripheral equipment" and that it would not thus get into a manufacturing position. At the time of its convention, Bryce Bate-man, the firm's product director, stated that conventioners would be surveyed to ascertain whether they felt a CTV product made sense. It apparently does.

Already in the can are some 300 full-length motion pictures and some 800 sports, educational and miscellaneous programs. Avco's marketing plan is to lease the programs. It has in development a monochrome video camera for the home user. The set can play back home movies shot on blank tape. The unit can also play up to two hours of pre-recorded programming on a single cartridge.

Cartrivision Deal

• Continued from page 30

Miss Child. There will be 51 half-hours to the gardening program. The needlepoint show is a 15-minute feature.

Of interest to this deal is that the Julia Child program is still running around the country thus she becomes available in two formats—on free UHF TV and shortly on rental cartridges from the parent Avco company.

CATV operations will be competing with stations that are on the air. KPOT-FM already has a potential of 4,000 listeners.

Allan C. Grover, in the programming department at KDYL, Tooele, Utah, needs country music records. It's the only station in the county, he said, and has an audience potential of 30,000.

Dick Williamson is now doing the 2-6 pm. show on WIND, Chicago. And **Ron Britain** is now on 6-10 a.m. Williamson had been doing weekends on the station. . . . **Harvey (Humble Harve) Miller** is going to program KCIM, a new radio station being set up at Chino Institute for Men, a California prison. The Columbia School of Broadcasting, Los Angeles, will provide free radio announcing courses for inmates, according to CSB's general manager **Bill E. Brock**. (Harve doesn't need any lessons, of course.) Various radio men will conduct seminars inside the prison. **KGIL**, beautiful out-of-town San Fernando Valley, and **KNBC**, San Francisco, have donated records.

Bob Mercer of Fantasy Records has given albums. **Chuck Heinen** of KHS, Los Angeles, is giving equipment, as is **Ray Stanfield**, KGBS, Los Angeles. **Nell Bogart**, Buddha Records, donated money. Anybody else that wants to help can contact **John Jenney**, CSB, 213-469-3151, who's coordinating the project.

China Smith is out of KING, Seattle, and his phone number is 206-723-7993 if you need a high caliber personality. He's worked some good markets. . . . **Steve Kelly** has departed KEEL, Shreveport, and **Randy Haynes** has returned after two years in the army. **Kelly**, under the air name of **Steve Franklin**, is now doing afternoon drive at WYSL, Buffalo. **Larry Ryan**, program director of KEEL,

writes that the **Chuck Biore** sessions at the **Bill Gavin** Radio Program Conference in New Orleans was "worth every dollar I spent, and his awards presentation was even better. Having considered myself very good in production, I now consider myself a beginner again, as he has given me a whole new insight into the world of production. He is a really high-class production man." Larry also accuses me of not being able to spell Larry (correct).

Bill Cox writes that he's now at WISP, Kinston, N.C.; he'd been at WISE in Asheville, then at WKKE, Asheville, for a while. Former WISE men that are now elsewhere include **Jerry King** at WKKE, **Jay Michael** at WFGW, Black Mountain, N.C.; and **Mark Wheeler** who's now in college full time.

Robert Fox and **Robert Fox Jr.**, five pounds and 12 ounces, say hi to **KNUZ**, Houston, staff. Fox is now in the news department at **KXOK**, St. Louis, and junior is one of his prime new listeners. . . . **Keith James**, third ticket, a few years of experience and lots of potential, needs a gig. Call him at 704-684-7217. (Continued on page 36)

Brad Miller Release

• Continued from page 29

spring. Mobile Fidelity's quadrasonic tape product lists at \$7.98, while discrete disks will list at \$5.98.

The **Mystic Moods** first album for Warner Bros., "Love the One You're With," will be released in February as a 4-channel cartridge (by Ampex Stereo Tapes), a stereo disk, and perhaps a 4-channel discrete disk. Miller said.

Miller has also cut a 4-channel album by **Clare**, a singer signed to Mobile Fidelity Productions. Her first single "Saunders Ferry Lane" was distributed by A&M Records.

TALENT IN ACTION

TOP ARTISTS OF 1971 (Based on Billboard's Charts)

The information compiled for the Top Artists survey is based on the weekly chart positioning and length of time records were on the respective charts from the Billboard issue dates of January 2 through November 27, 1971. Points were assigned to each weekly position, in reverse order for each chart in the categories represented. In addition, the No. 1 position each week was assigned bonus points equal to the total number of positions on its respective chart. In this way all the records of a particular artists, publisher or producer were compiled, combined and placed in total point strength order. Where a record was shared by more than one artist, publisher or producer, and each was known in his or her own right, the points were divided equally. Each artist, publisher or producer, however, was given credit for the record. All listings were compiled by the staffs of the Billboard Music Popularity Charts Department under the direction of Don Owens and the Corporate Research Department under the direction of Andy Tomko.

TOP RECORDS OF 1971 (Based on Billboard's Charts)

The information compiled for the Top Records survey is based on the weekly chart positioning and length of time records were on the respective charts from the Billboard issue dates of January 2 through November 27, 1971. These recaps, as well as the weekly charts, do not reflect actual sales figures. The ratings take into account the number of weeks the disk was on the chart, plus the weekly positions it held during its chart life. Each disk was given points accordingly for its respective chart, and in addition, the No. 1 disk each week was assigned bonus points equal to the total number of positions on its respective chart. These recaps were compiled by the staffs of the Billboard Music Popularity Charts Department under the direction of Don Owens, and the Corporate Research Department under the direction of Andy Tomko.

GIs in Germany Take Free Ride On Grand Funk With Humble Pie

By **BRUCE JOHNSON**
Staff Writer

SCHWEINFURT, Germany (S&S) — Can you dig it? Grand Funk Railroad, considered the premier group in rock, giving a free concert for GIs in Germany?

After four days of hectic planning following the cancellation of the group's Munich concert, due to past rock riots, Grand Funk Railroad and the British group Humble Pie performed an outdoor concert on the airstrip at Conn Barracks here Tuesday night.

It was quite a bizarre scene as about 7,000 GIs and dependents sat on the plush green

grass between runways while the groups played on a makeshift stage. On each side of the stage, 2½-ton trucks were parked so their beds could be used for speaker platforms while tanks 300 yards away illuminated the setting with spotlights.

The concert, sponsored by USAREUR Special Services and the 3rd Inf Div, started at 8 p.m. under clear skies with Humble Pie playing as the sun was setting behind the stage. It ended with Grand Funk—guitarist Mark Farner, bassist Mel Schacher and drummer Don Brewer—receiving a thunderous ovation of thanks beneath

the stars three hours later.

Grand Funk immediately set a torturous pace and gained momentum for the next two hours. Farner roamed across the stage playing, singing and swirling his long brown locks. Brewer pounded and manipulated the drums with an intensity that included using his head as a drum stick. Only quiet and docile Schacher, expending all his energy on the bass guitar, appeared calm. Their sounds merged into an explosion of immense proportions pushed by 6,000 watts of amplification that has made Grand Funk one of the hottest and loudest rock groups.

Last year the group sold more albums and tapes — 10 million plus — in the United States than any other artists. This year the Grand Funk expects to gross around \$15 million and the group averages \$60,000 a performance.

Manager Terry Knight, from Flint, Mich., as are his charges, explained the motive behind the free concert for the troops in Schweinfurt:

Not Impromptu

"The concert was really not a spur-of-the-moment decision. Last January we indicated to the Pentagon that we would be interested in playing for the troops but we didn't receive a reply. With the Munich date being canceled, everything started falling into place. We were glad to do it."

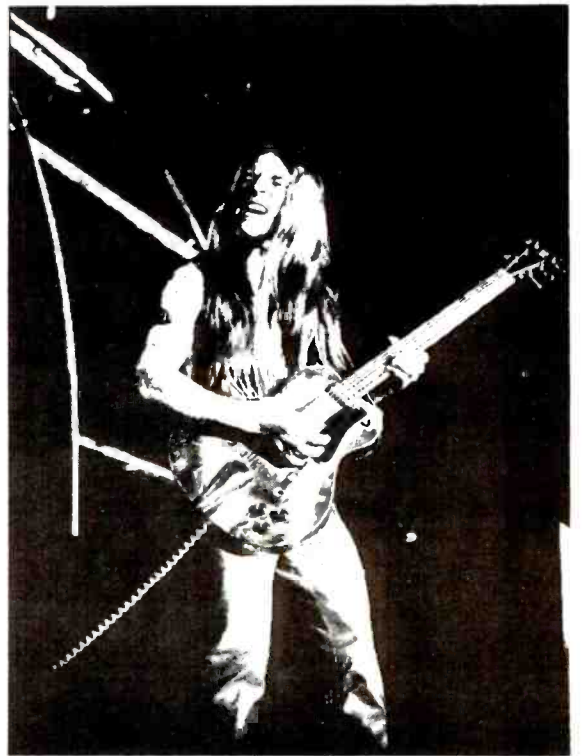

Grand Funk, although presently probably the highest paid group, has frequently given free concerts and plans to have another one in London's Hyde Park July 3.

"Politics has nothing to do with it," continued Knight. "We just want to play for the brothers and sisters anywhere in the world. And that includes Vietnam."

Paris USO Club Offers Free July 4th Buffet

PARIS (Special) — All military personnel and their dependents are invited to a free Independence Day buffet on July 4 at the Paris USO Club, 93 Champs Elysees. The buffet, to be prepared by the Hotel Prince de Galles, will be served from 12:30 to 2:30 p.m.

For further information or reservation forms, write Paris USO Club at APO 09777 or telephone Paris 225-8760. The club will also make hotel reservations for personnel planning to visit here over the holiday weekend.

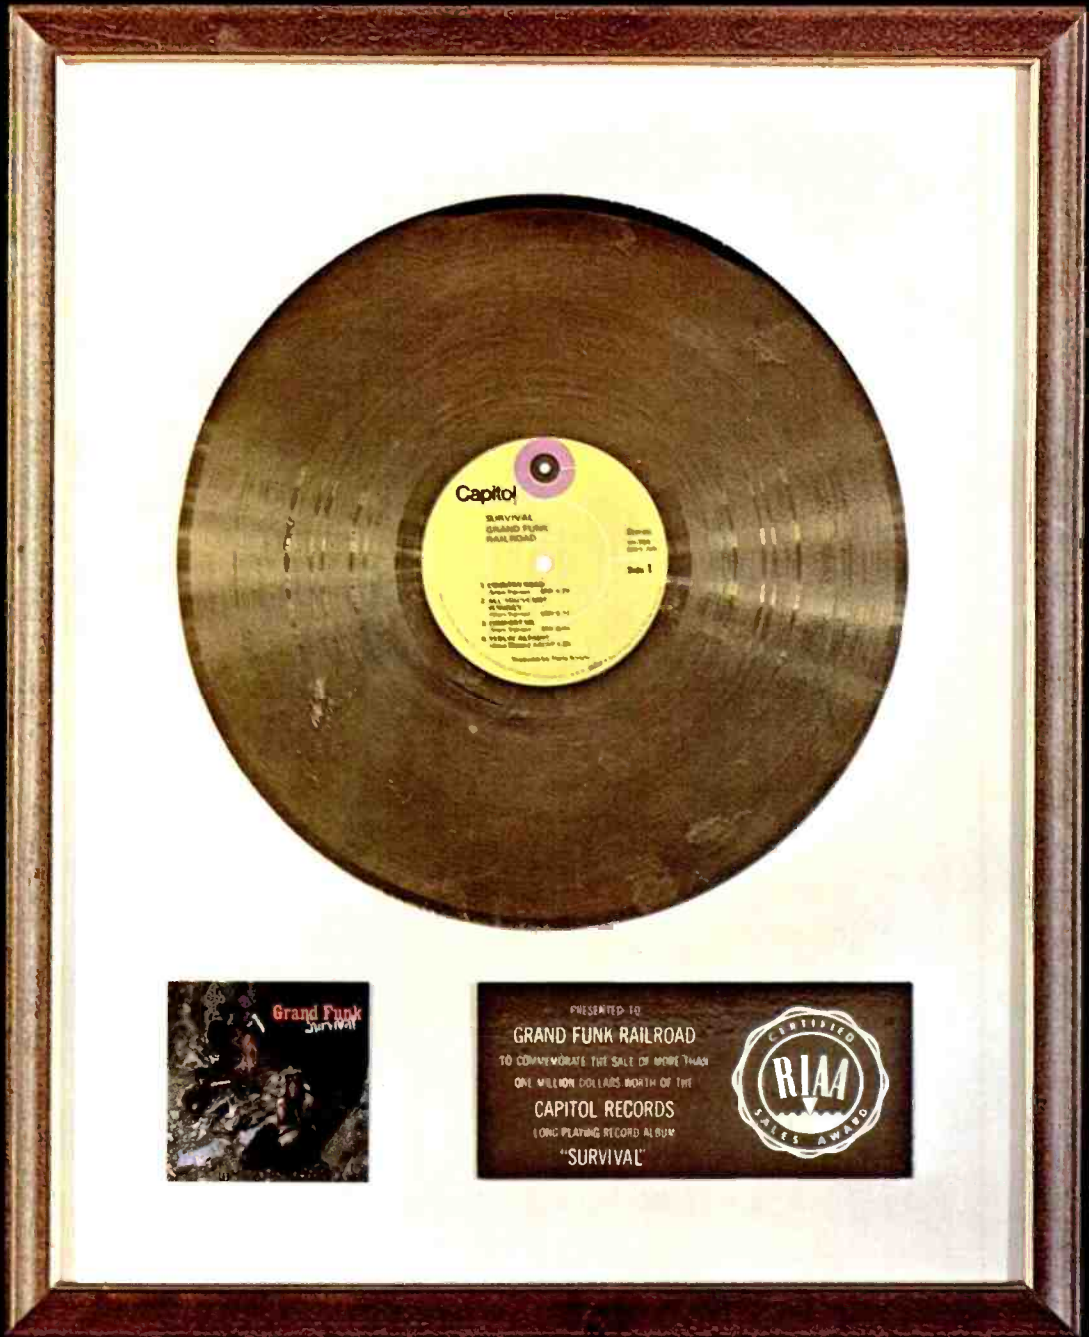

PLUCKER — Singer and guitarist Mark Farner does his thing.

PERCUSSION—Don Brewer takes off on a hot lick.

FAN-TASTIC—The expression on this young lady's face mirrors fairly accurately the fans' reception of the rock concert.

MIKE CURBB, right, president of MGM Records, presents the RIAA gold record award to the Osmonds for their million-seller of "One Bad Apple" at Caesars Palace in Las Vegas.

BURT BACHARACH, left, receives an antique samurai helmet and lacquered stand from Kazumitsu Machijiri, president of King Record Co., Japan licensee for Bacharach's label, A&M. Bacharach recently completed a Japanese tour.

BLACK SABBATH, Warner Bros. rock group, displays gold records received for the LP's "Black Sabbath" and "Paranoid." The gold bearers in the top row, left to right, are: Pat Meehan Jr., manager; Tony Tommi, lead guitar; and Bill Ward, drums. In the bottom row, left to right, are: Joe Smith, Warner Bros. executive vice president; Geezer Butler, bass; Ozzy Osbourne, vocals; and Pat Meehan Sr., manager.

CMA's ENTERTAINER of the Year, Glen Campbell, and Ernst & Ernst perform on stage.

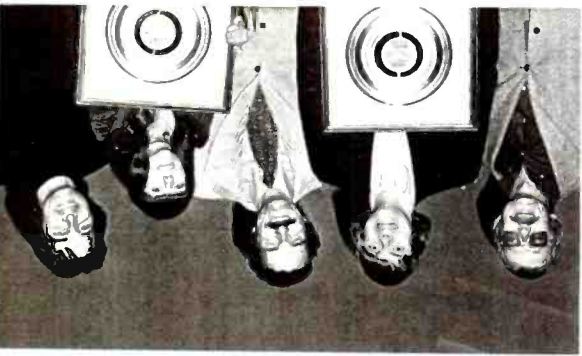

TAMMY WYNETTE receives congratulations and a platinum disk from Columbia Records president Clive Davis for her million album seller "Tammy Wynette's Greatest Hits." The presentation was made at the recent Country Music Association Show at Nashville's Municipal Auditorium. Lynn Anderson received similar honors for her LP, "Rose Garden."

Ah, Those Golden Moments

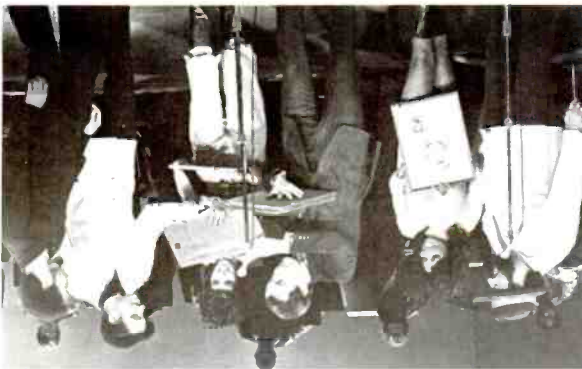

MICK JAGGER and Price Ruffin Lowenstein of the Rolling Stones business management firm confirm at the time of the group's signing with Atlantic for distribution of their product.

THE CARPENTERS receive two gold records for their single "Close to You" and for the LP of the same name from A&M producer Jack Daugherty, left; Jerry Moss, center; and Herb Alpert. The presentations were made at a luncheon for A&M's distributors during the NARM.

EMERSON LAKE & PALMER are presented with an RIAA certified gold disk for their latest album, "Tarkus." Left to right are Greg Lake, and Cotillion executive Vince Faraci.

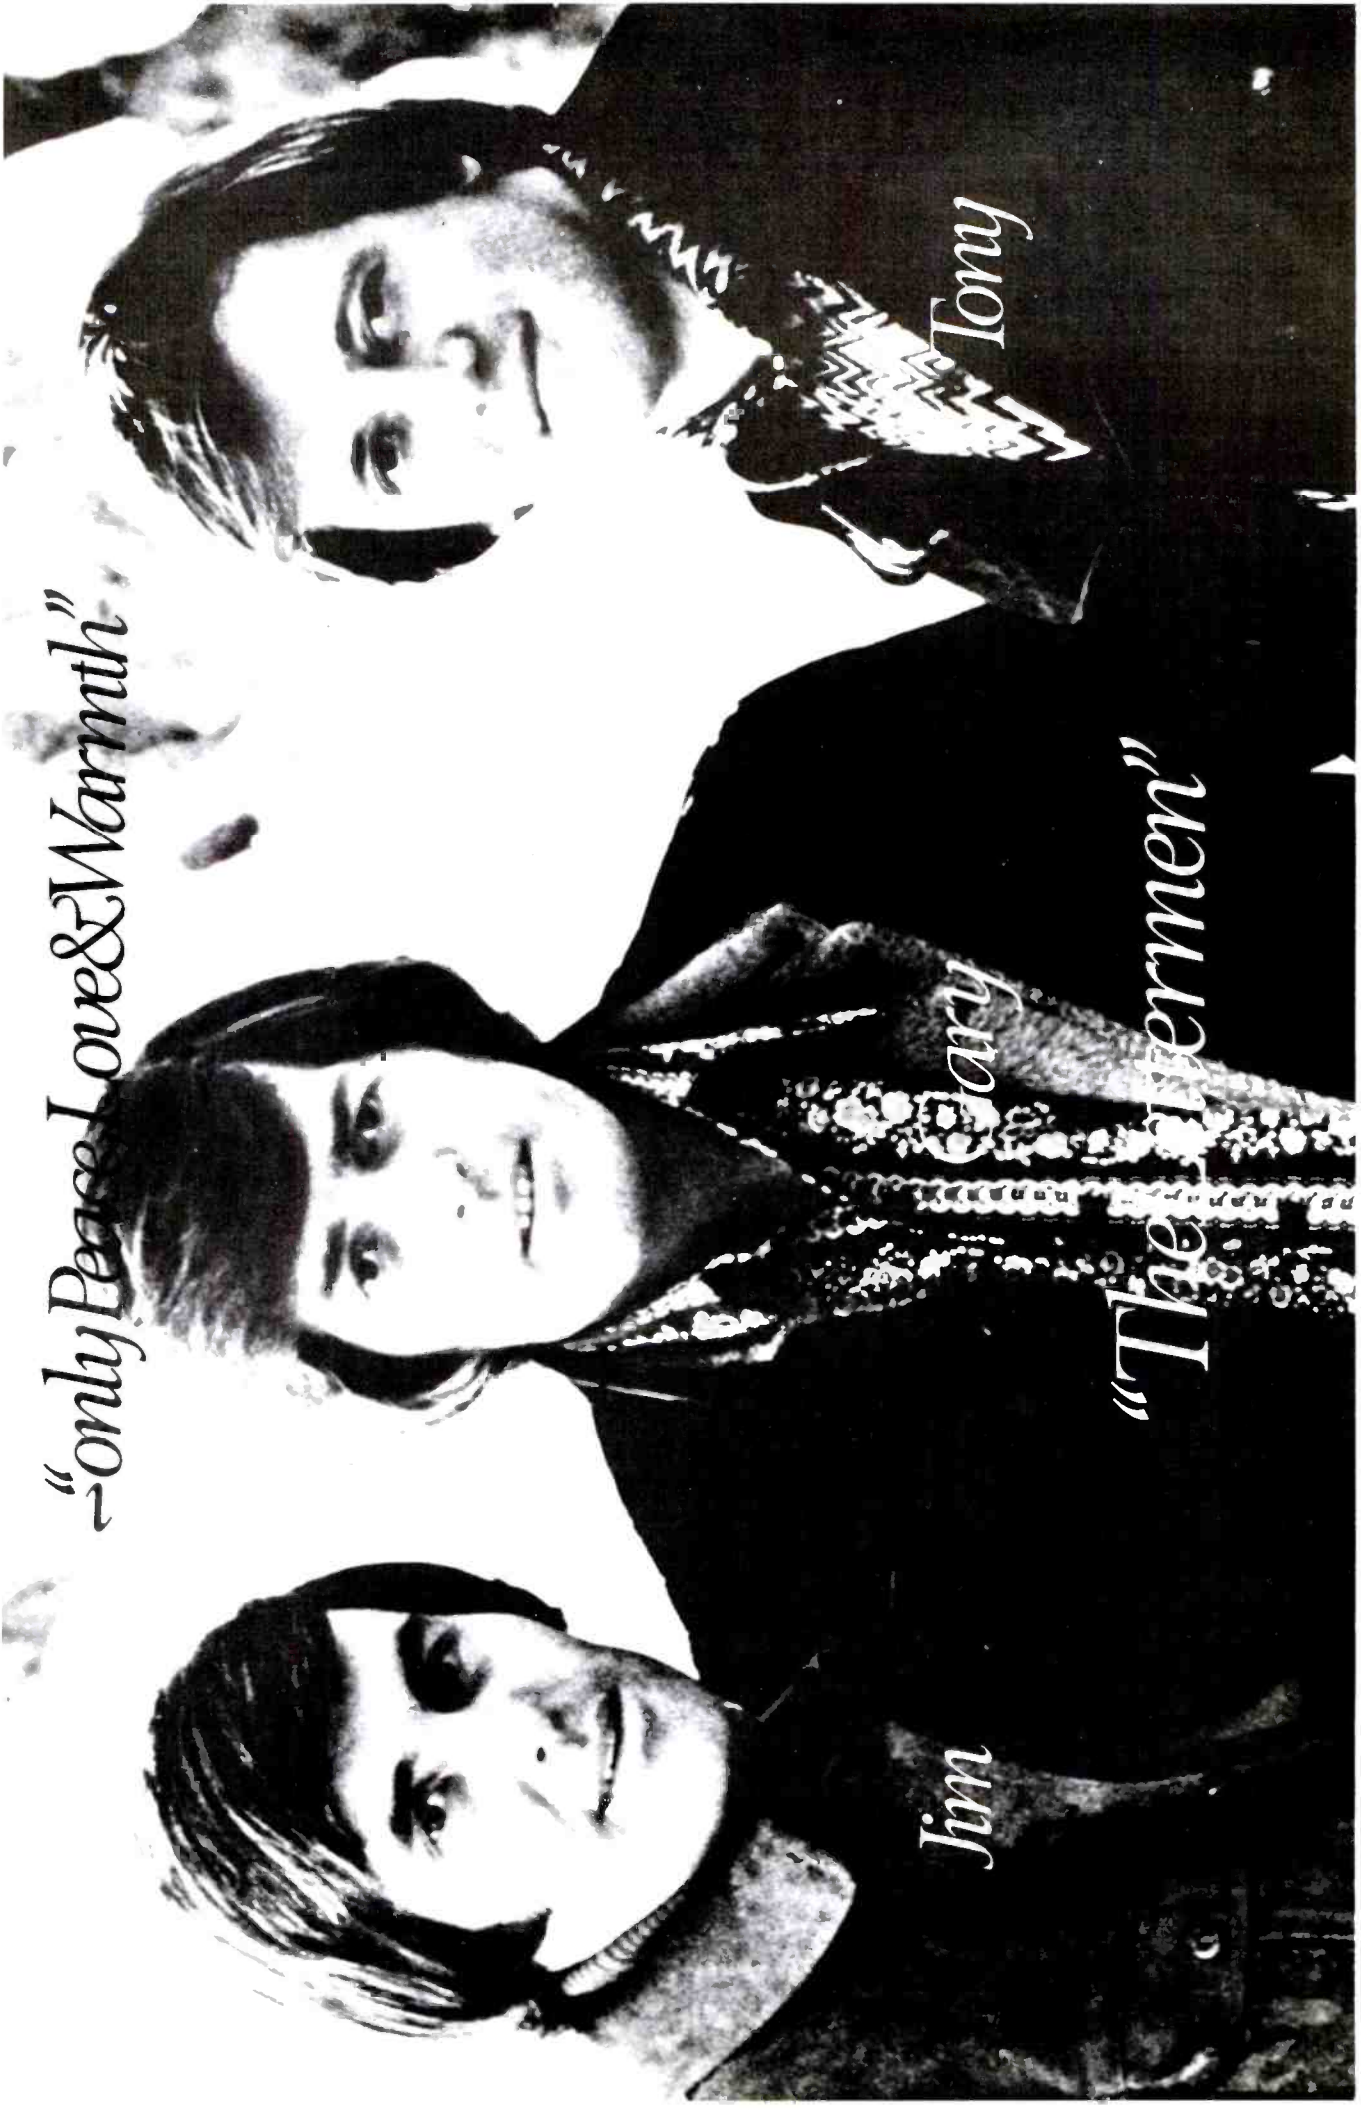

THE FIFTH DIMENSION receive gold records for their Bell Records single, "One Less Bell to Answer," from David Frost on his nationally syndicated television show. This marks the group's fourth gold single.

ROCCO LAGINESTRA, standing left, president of RCA Records, presents a gold record to Jim Brown for two million-selling singles, "Grazing in the Grass" and "Going in Circles," by the Friends of Distinction. Brown's company, Brown, Block & Coving, manages the group.

Some people don't join ASCAP because they think they can't get in. We don't know whether to be flattered or annoyed.

Somewhere along the line, word got out that ASCAP was the Phi Beta Kappa of the music industry. And the only way to become a member was to be elected for outstanding achievement.

A look at our list of members didn't do anything to discourage it: Irving Berlin, Richard Rodgers, Burt Bacharach, Bob Dylan. (You get the idea.)

While we're flattered that many writers have this view of us, we're happy to admit there isn't a shred of truth in it. And if almost all the outstanding writers in the business seem to belong to ASCAP, there's a good reason.

Royalties.

ASCAP collects more royalties for its members.

You see, ASCAP is a performing rights society owned by its members—writers and publishers of music. As a result they're able to look out for their interests better than someone who isn't a writer or publisher. They have to account to no one but themselves.

So who do you have to be to join ASCAP?

Simple.

Any composer or author of a copyrighted musical composition who shall have had at least one work of his composition or writing regularly published or commercially recorded is eligible.

Any composer or author of a copyrighted musical composition who is not found to be eligible to membership in the participating class may be elected as an associate member.

Any person, firm, corporation or partnership actively engaged in the music publishing business whose musical publications have been used or distributed on a commercial scale, and who assumes the financial risk involved in the normal publications of musical works is eligible.

So if you're thinking of joining a performing rights organization, or have already joined one and are sorry it wasn't ASCAP, get in touch with Dave Combs in New York at (212) 595-3050. Or Herb Gottlieb in Los Angeles at (213) 466-7681. Or Ed Shea in Nashville at (615) 244-3936.

If the line's busy, hang up and call again.

After all, there are 30,000 of you and only three of them.

ASCAP | Lincoln Plaza,
New York, New York

FREE

WITH EVERY
BUDDAH* ARTIST YOU BOOK...
THIS TEAM OF
SPECIALISTS TO HELP YOU
SELL THEM

RON WEISNER
Director of Artist Relations
Ron's the man who might take Bill Withers to the Dick Cavett Show, where he'll mention your upcoming concert. And he's the man who makes sure that all the press people who matter in your area are given tickets to your Brewer and Shipley concert. Ron co-ordinates artist appearances to make them work for our artist, our company and you.

NANCY LEWIS
Publicity Director
Nancy wants our artist's name in print, and of course, yours too. If you've got Exuma coming into town... or Sha Na Na... she'll try to get you some advance publicity on the event. The least she'll get for you are some of the best written bios in the business and the most usable and printable glossy photographs. Nancy is new at Buddah, but she didn't do badly for the five years she worked for The Who.

JOE FIELDS
Sales Manager
Joe likes it best when we sell records, and we sell more records when an act plays to a good house. So he'll help with some radio commercials for your Curtis Mayfield concert... or get posters into key records stores promoting a Buzzy Linhart appearance.

GLEN CHRISTENSEN
Art Director
Glen is a newly acquired talent who is designing all our ads now. Most likely he's designed an ad for Honey Cone... or Dust, that you can use in your own advertising. First of all, it's cheaper and easier. Secondly, it makes your advertising work better with ours. He'll send you mats or glossys, or at the very least, a good photostat of a usable ad.

THE MANY STYLES OF ARTISTRY

Dave Brubeck, his hair longer, and working with Gerry Mulligan, was a popular name along the jazz festival circuit.

JEFF BECK, left, goes over plans for his new affiliation with the Epic label, with Clive J. Davis, president of Columbia Records.

DINAH SHORE, host of "Dinah's Place" television show, duets with Decca Records artist Loretta Lynn, left. Miss Lynn introduced her single "One More on the Way" on Dinah's show.

ENTIRE HOT 100 (1955-1970)

"I highly recommend The Miles Chart Display to the serious music student, as well as to those who merely enjoy contemporary music."
 —Dick Clark
 (Popular host of American Bandstand)

SEE THE CHART ACTION OF EVERY HIT RECORD. The week-to-week chart positions of every record from *Billboard's* Hot 100 are shown in graph form. Nearly 10,000 spanning 15 years of pop/rock history are arranged alphabetically by song title. Each entry includes: title * artist * label and label number * dates the record was on the charts * number of weeks it was on the charts * highest position * gold record (if any).

COMPARE THE ARTISTS. Composite graphs compare the different versions of nearly 200 popular songs. Did Elvis Presley have the most popular version of *Blue Suede Shoes*?

ARTIST INDEX. More than 2000 artists have contributed to the Hot 100. This invaluable index lists every record for every artist in the order they hit the charts. Beginning with *I Want To Hold Your Hand*, the Beatles have had 62 records on the charts, and more than 1/3 of them have hit the top!

#1 SINGLES. A chronological list of the country's favorite recording for each week (nearly 800 weeks).

LIBRARY QUALITY REFERENCE. 1269 pages. Page size 8 1/4" x 11". Gold-embossed hard cover.

You're in good company when you own *The Miles Chart Display*.

SATISFACTION GUARANTEED (or money back if returned within 10 days)

Please send me _____ copies of *The Miles Chart Display*

TV: Toronto.
Contact: Benny Goodman.

(Continued on page TA-58)

There are definite advantages to both simulated and true 4-Channel stereo. That's why we put both in this receiver.

Because so much is being written and said about 4-channel these days, and because so many people are wondering which to buy and what they're going to get when they do, JVC is about to set the record straight.

True 4-Channel.

True 4-channel, known as the discrete system, is sound coming from four distinct and separate sources.

Right now there are very few true 4-channel program sources, but it is expected that the next few years will see an increasing demand for true 4-channel equipment, 4-channel records, tapes and cartridges.

Keeping this in mind JVC has developed the world's first discrete 4-channel record (CD-4) to be marketed soon.

Owning a discrete system means you're ready to start enjoying true 4-channel sound.

Simulated 4-Channel.

Simulated 4-channel simply means the ability to take 2-channel tapes, records and FM broadcasts and play them in the new 4-dimensional format.

This is done by picking up reverberation and "indirect" sound in 2-channel sources and converting it into 4-dimensional sound to closely

approximate the "sound field" as it existed originally.

This system allows you to continue to enjoy all the stereo tapes and records you presently own and get even more pleasure out of them because you'll be hearing them in a truer and clearer way than ever.

Why we put both in our receiver.

At JVC we realize that anyone considering buying a receiver these days is faced with the problem of deciding whether to buy 2-channel equipment or 4-channel equipment.

JVC's 4-channel receiver Model 5444 is the ideal answer.

It contains a quality simulated system that allows you to continue to enjoy all the tapes and records you presently own and a highly advanced discrete system that lets you play discrete 4-channel program sources.

Besides offering you both systems in one receiver, JVC also offers you on this unit their exclusive patented Sound Effect Amplifiers which allow you the kind of sound control no other home system has.

With SEA you can create new sounds, adjust for the acoustics of your room and control the difficult mid-ranges.

Another advantage of this receiver

is a BTL circuit that allows you to convert the 50 watts from each of its 4 channels and use it as a powerful 100 watt 2-channel receiver.

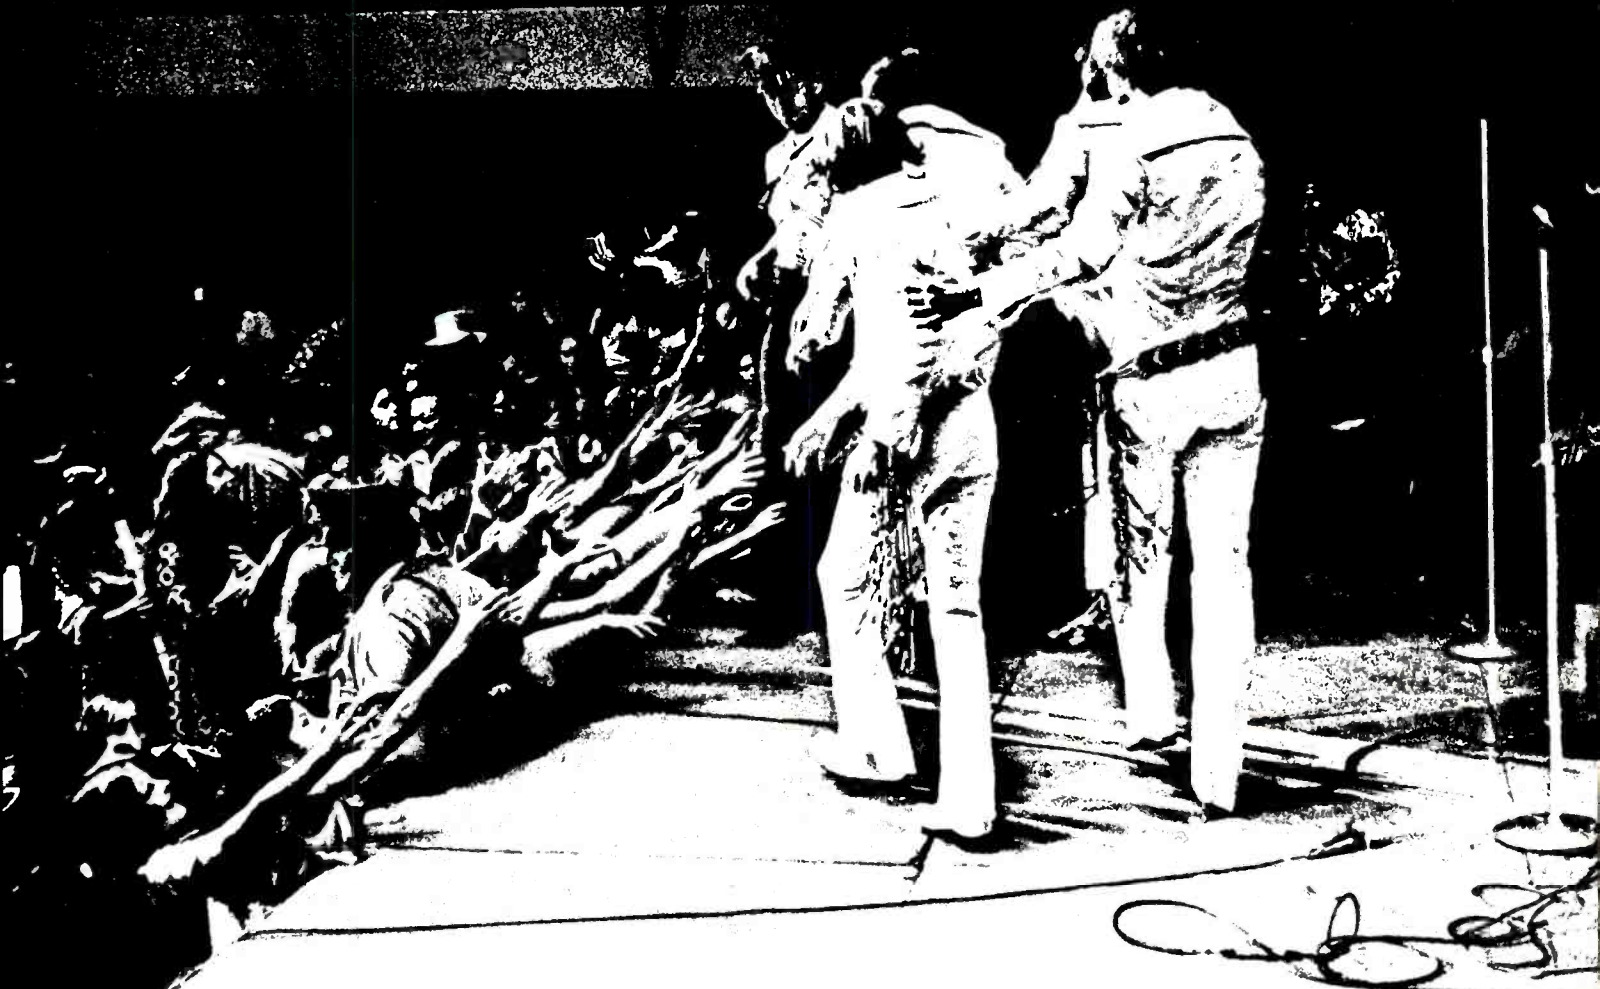

We've also incorporated into this unique receiver a linear dial scale and a bull's eye tuner to make sure you get perfect reception on its FM/AM radio, and optional remote control which gives you complete control over each of the 4 channels. There's even FM muting, front and rear monitoring, and a 4-channel headphone output. And the entire system comes in a handsome mahogany case so you can show it off even when you're not playing it.

And, if you decide to go into 4-channel equipment, JVC is the only company that will be in the position to offer you a complete line including reel to reel, cassette and cartridge tape recorders, receivers, preamplifiers, amplifiers, record players and more.

So if you're thinking of investing in 4-channel equipment, think of the company that's a leader in the field. JVC. The company that can give you both the most advanced true 4-channel and simulated 4-channel. In one unit.

JVC America, Inc.

Bright and proud.
MCA Records is
Decca is Uni is Kapp.
Shining for everyone
to see.

BROWNSVILLE STATION USA

Brownsville Station brought the house down. After an hour of clapping, stomping, dancing and singing along with the music, the audience screamed their throats out for more. We've never seen an audience more involved.

—St. Petersburg Evening Independent

Most groups mess up root rock, but Brownsville Station have effectively surmounted any pitfalls. Their music in "No B.S." has a loose, whooping quality yet remains unfalteringly tight and forceful.

—Rolling Stone

What a gas the Brownsville Station are! On and off stage they never stop moving. Beautiful, beautiful band!

—Detroit News

There's some of the best rock in the Brownsville Station's "No B.S." than in anything since the rise of Creedence Clearwater Revival. This music combines just the right amount of irreverence, good humor, nonsense and ability. It's all very intense and very good.

—Los Angeles Times

Brownsville Station plays music with the tightness and drive of the best bands. With the addition of pounding drums-and-bass undercurrent, excellent voice, and a tastefully screaming lead guitar, the sound grows . . . Great to listen to, and perfect to dance to.

—Chicago Sun-Times

Brownsville Station belong to that school of thought that believes that a rock artist must combine top musicianship with an equal desire to perform and entertain. They rock 'n roll and explode with top showmanship. . . . Suspend critical evaluation, if you will, for a while, and let yourself go, travel with the "Station."

Just a note to say how thankful
and grateful I am that music is
becoming so much more beautiful and
exciting. And the artist, producers,
A&R men, technicians, writers, office
staff and agents are giving their
whole hearts and soul to it.
So many times its been uplifting
and I am so proud of us all.

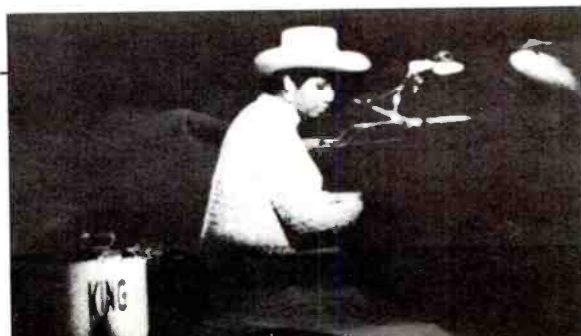

thank you... Billboard
Cashbox
Record World
Soul Publication
Johnson Publications

and Variety for keeping us all alert
in another sense of ourselves.

with my love, always

 *retha*

P.S. call me the moment.. 'cause I love you.

Pacific Memorial Stadium: one of the largest outdoor facilities for rock concerts in Northern California, with a capacity of over 40,000

Pacific Stadium in Stockton is a great place for a rock concert. Just ask one of the 22,000 fans that came to hear Chicago last spring. Or ask us. Associated Students, University of the Pacific, Stockton, California 95204 (209) 946-2233 Attention: David Bennett

CALLIOPE
 A versatile seven member rock-pop group, led by hard hitting Steve Cassiola, with a presentation that brings audiences to their feet.

The GRINGOS
 Featuring Jimmy Miller & Donna Byrd, have astounded audiences in many major Niteries throughout the US...with a whole new concept in music.

From Caesar's Palace to Lucifer's
 From Fountainbleau to The Sahara

WE'RE GOING PLACES!

SOUP
 Successful from the start, S.O.U.P.'s popularity with hip adult audiences has resulted in a growing number of successful dates throughout the West. These talented young men generate excitement wherever they go.

LEADFEATHER
 From the moment this powerful eight-man group comes on the stage, they never let up—they build a castle of sound so real you're surprised to see it vanish when the vibrations die away.

**Somewhere in the world,
they're waiting for you.**

For most records there's an enthusiastic audience somewhere. The trick is to find them. And that's what CBS International does better than any other recording organization. Every week, you'll find CBS artists you've probably never

heard of, taking one place or another by storm.

We've broken American artists overseas before they hit in the States. We helped a singer from France sell a million copies of his latest record in Germany.

We helped an English group hit

big in Argentina, a Canadian artist top the charts in Japan and on and on.

And since we have complete recording, pressing, packaging, promotion and publishing facilities all over the world, we can make you important in places that you haven't even heard of yet.

CBS International.  Think big. We do.

Sergio carries sound insurance.

Mention "Shure Microphones" anywhere on the contemporary music scene, and you'll get turned-on looks from such stars as: Sergio Mendes & Brasil '77, The Who, The 5th Dimension, Led Zeppelin, Carpenters, The Lettermen, Lainie Kazan, The Cowsills, The Dells, The Association, Chad Mitchell, Eartha Kitt, and just about everyone else who's together! They *all* use Shure microphones! For yourself or your group, get it on with your own *Shure Unisphere* or *Unidyne*. They both go great with any sound — including yours!

Shure Brothers Inc.,
222 Hartrey Ave., Evanston, Ill. 60204.

DOC SEVERINSEN shows his trumpet to coeds at a university center. The leader of the NBC-TV "Tonight" orchestra tours the country in between his regular TV and recording work.

Top Talent In Action

PAUL McCARTNEY directs session at New York's A&R Studios for his new Apple Records album, "Ram."

THE WORLD traveling Creedence Clearwater Revival used a private jet to fly from San Francisco to Los Angeles to appear on Tom Campbell's American Forces Radio Services program.

SONNY AND CHER became a fall hot team with records and television successes.

ROBERTA FLACK meets with friends after her debut with Quincy Jones at the Greek Theatre in Los Angeles. They include Atlantic's George Furness, Flip Wilson, Cannonball Adderley and Jones.

ARETHA FRANKLIN is a happy winner of the top female soul Grammy award

JAMES BROWN—"Mr. Soul," shouts out his message of truth during one of his concerts.

CHUCK BERRY, a living legend who continues to grow with each new album, looks and listens during a record session at Sound Exchange Studios in New York.

THE JACKSON FIVE had their own ABC-TV special "Goin' Back To Indiana" as a result of their phenomenal popularity with young audiences. Here they rehearse a basketball skit against a dream team of pros.

B.B. KING, named top soul performer, holds his Grammy.

THE STUDIO IN MUSCLE SHOALS

is in **HOMEWOOD** — only minutes away from Muscle Shoals
and just 20 minutes from the large new Birmingham airport

SOMETHING TO THINK ABOUT

Our Staff musicians were formerly the top studio group in Memphis, whose credits list names like Isaac Hayes, B. J. Thomas, Sammy Davis, Jr. Aretha, Little Richard, Erma Franklin, David Porter, Staple Singers, Rufus Thomas, Johnny Taylor — just to mention a very few.

Our Engineers are hand picked west coast men whose list of hits are equally impressive.

Our equipment is the finest in the world featuring a 3M 16 track, the largest Neumann console w/quadrasonic mixdown, Acoustavoice JBL speaker system, EMT & live chambers, closed circuit television, and much more.

The Sound is everything you'd expect from Muscle Shoals—and more.

We have the best of everything you want, including the best studio rates in town. Something to think about if you're planning to record in Muscle Shoals.

THE GREAT IMIC-4 EXPOSÉ

ANNOUNCING THE INTERNATIONAL MUSIC INDUSTRY EXPOSITION

Very few times has a meeting taken place that caught the eyes of so many influentials at one time. In the past, the policy has been to keep top level meetings under wraps. Not so in the case of the International Music Industry Conference (IMIC-4). For three years, decision makers in the music industry have been openly meeting to plan the future of their business.

Now, for the fourth consecutive year, another meeting of a large and important group of executives is set to get underway. Set in the exotic backdrop of Acapulco, Mexico, IMIC-4 convenes with an assembly of music world executives, who will discuss the destiny of the multi-billion dollar music industry. An entire industry gathered in one place for one week: April 30 through May 5!

And now, for the first time in three years, the Billboard World Group in response to requests is making available a limited number of display booths to expose industry influentials to exhibits of new hardware, new software and new developments in the home entertainment and music field.

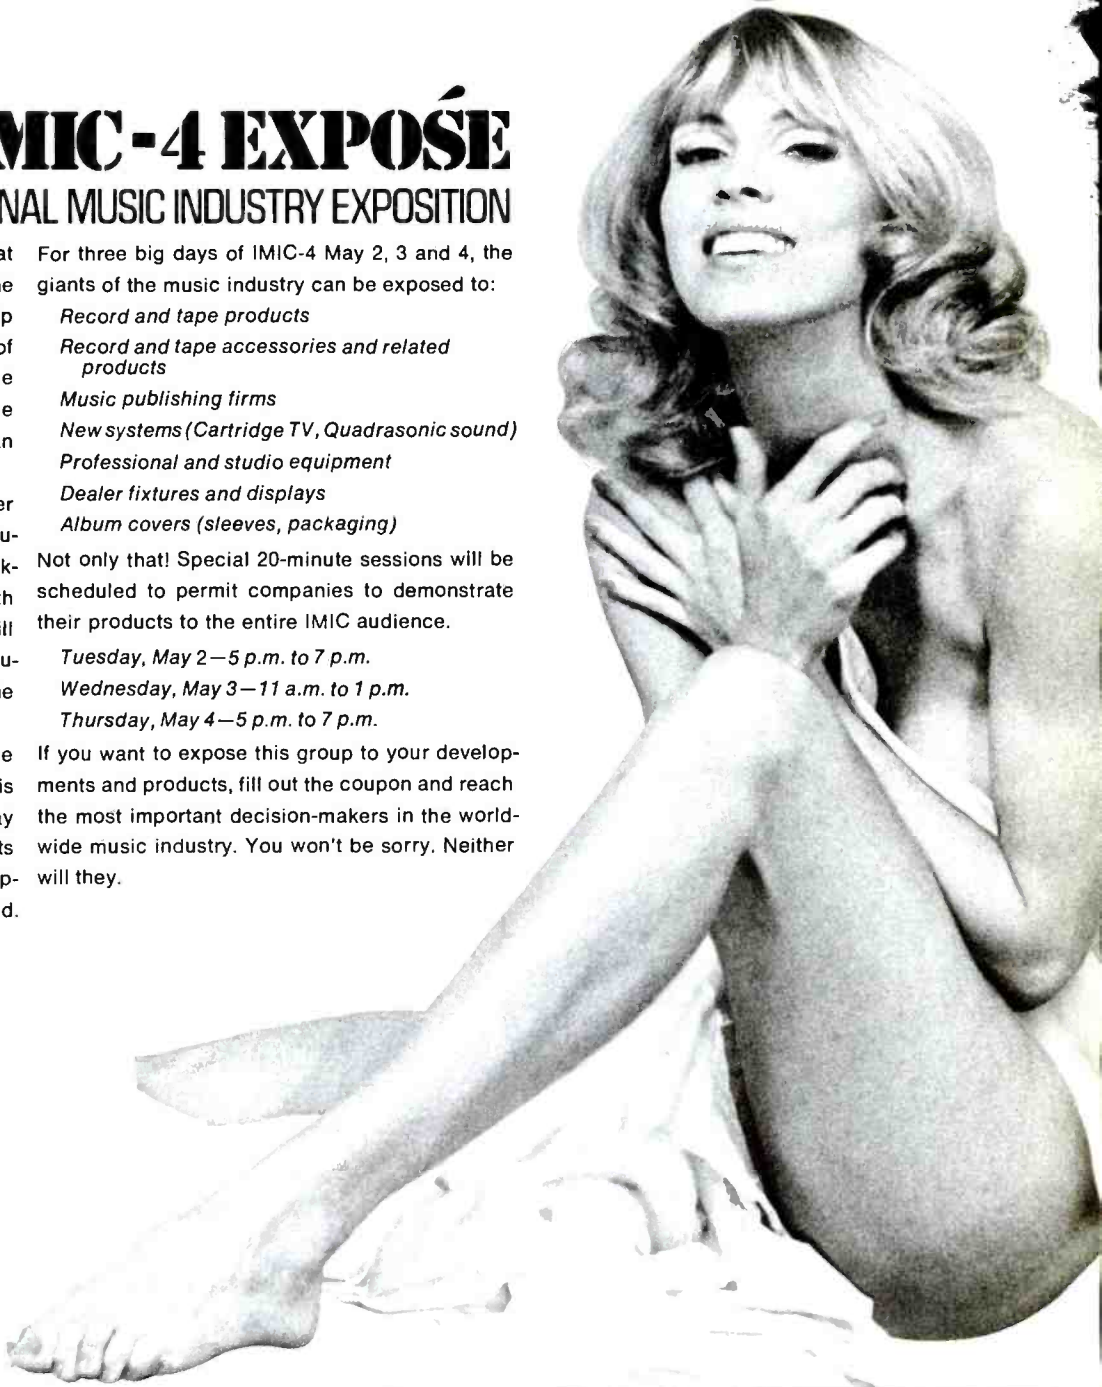

For three big days of IMIC-4 May 2, 3 and 4, the giants of the music industry can be exposed to:

- Record and tape products*
- Record and tape accessories and related products*
- Music publishing firms*
- New systems (Cartridge TV, Quadrasonic sound)*
- Professional and studio equipment*
- Dealer fixtures and displays*
- Album covers (sleeves, packaging)*

Not only that! Special 20-minute sessions will be scheduled to permit companies to demonstrate their products to the entire IMIC audience.

- Tuesday, May 2—5 p.m. to 7 p.m.*
- Wednesday, May 3—11 a.m. to 1 p.m.*
- Thursday, May 4—5 p.m. to 7 p.m.*

If you want to expose this group to your developments and products, fill out the coupon and reach the most important decision-makers in the worldwide music industry. You won't be sorry. Neither will they.

CONFERENCE EXHIBITION FORM THE 4TH INTERNATIONAL MUSIC INDUSTRY CONFERENCE APRIL 30-MAY 5, 1972 / ACAPULCO, MEXICO
